Hey I'm Martin, Creative Director of Martin Sully Design. A boutique Design studio, creating visually engaging, exciting, thought-provoking brand identities, marketing materials and website designs using a combination of typography, imagination and photography. We love to be hands-on with clients. *We want to meet you*, listen to your ideas and thoughts, and understand the challenges that you face.

Our business is built on a foundation of print, with experience in signage, large-format publishing, stationary, sales and marketing documents, newsletter design and more. We have great links to local printers, so that if you want a 14-page scratch and sniff marketing brochure, full of beautiful photography with a fold-out section and neon inks – we can help pull it off.

But, that doesn't mean we don't embrace change. Recently, we were granted membership to Squarespace Circle, giving us access to more tools to help design and build beautiful websites. Squarespace is a design-driven website platform. It keeps design, and your branding forefront. And, with minimal training, we can help you manage your own website, write your own SEO optimized blog posts, and track your websites analytics. Or alternatively, we can handle that for you.

A new photography service has recently been offered to all clients, and as a special offer to Beach Business Breakfast members, I would like to offer a portrait photoshoot to all members for a reduced rate of \$80.

SPECIAL OFFER – Free 1-hour brand-strategy workshop, and a reduced price photoshoot for \$80.
